1. Acceptance.

This Purchase Order ("Order") constitutes Buyer's offer to Seller, and is expressly made conditional on Seller's acceptance of Buyer's terms and conditions only. This Order expressly limits Seller's acceptance to Buyer's terms and conditions only, and Buyer objects to any of Seller's terms or conditions which are additional, different, inconsistent or in conflict with Buyer's terms and conditions herein. Such additional, different, inconsistent or conflicting terms or conditions of Seller shall not become a part of this Order unless accepted in writing by Buyer. Seller shall have accepted this Order by issuance of its acknowledgment, commencement of performance or delivery hereunder, or Buyer's acceptance, payment or use of any articles, parts, components, materials, goods, data, services and other property (collectively, "Articles") delivered hereunder. No revision to this Order shall be valid unless in writing and signed by an authorized representative of Buyer.

2. Warranties.

Seller warrants that all Articles delivered under this Order shall be free from defects in materials, design and workmanship, and guarantees that all Articles furnished will comply strictly with the specifications, drawings and all other requirements of the Order. The warranties of Seller, together with any service warranties and guarantees, shall run to Buyer and its customers. All warranties herein shall be construed as conditions as well as warranties, and the representations, warranties and conditions herein shall be deemed to be cumulative.

3. Packing.

All Articles shall be packed in suitable containers for protection in shipment and storage. Any hazardous materials shall meet all DOT and other federal and state laws. Any highly polished or highly finished or precision parts shall be properly packed in containers which will afford adequate protection against atmospheric deterioration or physical damage to any part. No charge shall be made by Seller for packaging unless provided on the face page of the Order.

4. Inspection.

All Articles delivered under this Order will be subject to inspection, testing and acceptance at Buyer's facility. All shipments signed by Buyer's Receiving Department are subject to inspection, check and count by Buyer's Inspection Department. All Articles may be inspected by Buyer under the Sampling Plan defined on the Order. Lots that fail to pass this inspection may be 100% inspected by Buyer, and Seller may be charged for inspection time or, at Buyer's option, returned to Seller for sorting, correction, replacement, or credit, as Buyer may determine in its sole and absolute discretion. Seller is responsible for the retrieval and disposal of hazardous materials pursuant to applicable DOT and EPA regulations that are found to be noncompliant with applicable federal or state laws.

5. Invoices.

Rejections, delivery delays, errors or omissions preventing prompt payment will be considered just cause for withholding settlement without losing cash discount privileges. By paying Seller's invoice before arrival or for the cash discount, such payment shall be subject to adjustment for any shortage in quantity, failure to make specified delivery or rejection. Freight and other charges must be shown if discount is not to be taken on the full amount of the invoice.

6. Pricing.

Seller represents that to the best of its knowledge, information and belief, the prices charged for Articles covered by this Order will not exceed the maximum prices permitted by applicable regulations, if any, of any Governmental authority, and Seller agrees to promptly refund any amounts paid by Buyer in excess of amounts permitted by such regulations.
